

P & P Medicaid Consulting, Inc. was established in 2003 in response to the growing need of families requiring assistance in obtaining Medicaid eligibility for home care services and/or nursing home care and placement at affordable rates. P & P Medicaid has since rapidly grown and expanded its service to meet the additional needs of geriatric care management, Social Security Disability applications, and P.R.I. screenings for nursing home admissions. In addition, P & P Medicaid also completes the documentation process for Pooled Income Trusts which allows qualifying applicants to keep their full income, while becoming eligible for home care or Community Medicaid.

P & P Medicaid is dedicated to making the Medicaid process as painless as possible. Many times, when a Medicaid application is necessary, prior to visiting us, our clients are under a great deal of stress, so our service is dedicated to easing the stress of the application process. We have a great working relationship with the Department of Social Services (Medicaid), and most of the nursing home facilities and home health care agencies throughout our service area. Our mission at P & P Medicaid is to provide quality service at affordable prices, for all aspects of Medicaid, Medicare and elder care services. We pride ourselves on providing organization, perfection, satisfaction, dedication and professionalism from application through approval.

Founded by Paul D. Mertz, P & P Medicaid has a staff with over 30 years of experience in the Medicaid and health care industries. In addition to Mr. Mertz, who is responsible for handling all aspects of the Medicaid eligibility process, the staff also includes geriatric care managers, registered nurses to handle P.R.I. screenings, and social workers.

Servicing Suffolk, Nassau and the Five Boroughs of New York

Medicaid Eligibility & Applications

Medicaid is a federally funded program run by the state and the county which provides medical insurance and long-term care for middle- to low-income persons, including the elderly and disabled. If one is eligible, based on income and resource restrictions, Medicaid will pay for all medical care (including doctors and hospitals), prescriptions, home care, nursing home care and other health care-related expenses. The program differs from Medicare, which is available to anyone over the age of 65 or to the certified disabled who have worked and paid into the Social Security system. Medicaid is based on income and resource levels and, although anyone can apply, eligibility standards need to be met. Unlike our competitors, we guarantee community Medicaid approval or our fee will be refunded in full.

Our company works with our clients in preparing applications for Medicaid eligibility, while taking advantage of programs and planning options to protect a person's or family's income and assets.

Other Services:

- Social Security Disability
- P.R.I. Evaluation and Nursing Home Placement
- Home Health Care Placement
- Pooled Income Trusts

Geriatric Care Management

Our company provides a full range of geriatric care management services. Many of our clients hire us to help care for an aging or infirmed adult. We will often assist with nursing home placement or home health aide management, while advising our clients on choices to protect their income and financial resources.

Geriatric Care Management Services provided for an older adult may include:

- Psychosocial, emotional, and medical assessment of patients, along with ongoing counseling and emotional support.
- Assisting in the referral, selection and applications necessary for in-home services, assisted living and nursing care facilities.
- Weekly visitations to home/care facility and monitoring client care plan with home/care facility staff.
- Coordination and supervision of in-home caregivers and other support services, including weekly medication management.
- Coordinate and attend medical appointments and doctor evaluations. Coordinate and confer health care providers regarding health concerns, medications, and compliance issues.
- Assisting family and client with medical directives, Medicare, Supplemental and Long Term Care insurance issues.
- Educate family regarding long-range planning options for their loved one, including Medicaid nursing home applications. Work with trustee(s), guardian and professional estate planners as necessary.
- Crisis intervention to coordinate and assess all medical emergencies.
- Act as health care surrogate if requested by client, when there are no other family members.
- Provide bookkeeping and bill paying services as needed.
- Weekly reporting to family member or responsible person.

What We Do

Unbeatable Service

- Same-day handling of all-new Medicaid applications, including the acquisition of all necessary Medicaid documentation.
- Full preparation of the file, for the best and fastest possible chance at Medicaid approval, utilizing our knowledge and associations.
- Timely handling of face-to-face Medicaid meetings with the Department of Social Services.
- 24/7 service to answer your Medicaid questions and handle your Medicaid needs and conferences with care providers and the applicant's family as often as necessary.
- Preparation of Pooled Income Special Needs Trusts, in order to protect and save on any home care Medicaid monthly income overage.

Affordable Pricing

We offer a wide range of very competitive and highly discounted pricing packages. Plus, our prices are a one-time cost, from start to finish!
